SUMMARY

I am a passionate Full Stack Developer with hands-on experience in building scalable and user-friendly web applications using technologies like React.js, Angular, Spring Boot, and MySQL. I excel in REST API design, database management, and cloud deployment, ensuring efficient and optimized solutions. With strong foundations in Data Structures and Algorithms and exposure to SAP ABAP and Generative AI, I bring both technical depth and adaptability. My problem-solving mindset and collaborative approach enable me to deliver impactful solutions while continuously enhancing user experiences.
